

Section 8

Appendix

Throughout this book, website addresses are given which children can access in order to obtain additional information. It is not unknown for unscrupulous individuals or organisations to place highly unsuitable material on websites to which children might have access. It is essential that teachers check the contents of websites before allowing the children access to them. Although we have tried to suggest reliable sources, websites can sometimes be removed or have their addresses changed. LCP cannot be held responsible for websites which are removed, or change their addresses, nor for the content of websites.
